Hands on Workshop: Searching for grants

The Office of Sponsored Research and Programs invites you to participate in the hands-on workshop to locate funding opportunities supporting research and projects related to your professional interests.

During this hands-on training session, we plan to demonstrate how to make your search relevant to your needs, assist in identifying a funding opportunity and answer any questions you may have.

This session will be productive only if you bring your laptop or iPad and your SPIN account is set up. Please contact us if you need to set up an account- keep in mind that it can take up to two days for the account to be validated and become active.
